Another One Bites the Dust-Mark Glenn Banned From Republic Broadcasting Network

Well folks, as much as I hate bringing my business into your lives, nonetheless, here we go again.

I was notified by email today that my relationship at Republic Broadcasting Network (RBN) has been permanently banned from the network.

Those of you familiar with my work will recognize Stockholder as the person who has been a thorn in the side of RBN for months now for their blatant censorship of Ron Paul supporters. Stockholder, AKA "The Liberty Hero", Brandon L. Smith, has been a vocal critic of RBN's censorship of Ron Paul supporters and has been banned from RBN's chatroom on numerous occasions for his scathing critiques of the network's censorship of Ron Paul supporters and his support of Ron Paul's campaign for President.

For the present week my Podcast from RBN scheduled to be the following Saturday.

Approximately 2 days ago, Phil Godlewski was scheduled to be on the radio show and he was pushing "Ron Paul Revolution" t-shirts. Stockholder, who has been a vocal critic of RBN's censorship of Ron Paul supporters, messaged Phil Godlewski in the chatroom and asked him why he was pushing Ron Paul t-shirts when RBN has been censoring Ron Paul supporters. Phil Godlewski responded by saying that he was not aware of RBN's censorship of Ron Paul supporters.

Stockholder, being the person he is, then took it upon himself to bring to Godlewski's attention the numerous instances of RBN's censorship of Ron Paul supporters. Stockholder then informed Godlewski that RBN has been banning Ron Paul supporters from the chatroom and deleting their posts. Stockholder also informed Godlewski that RBN has been censoring Ron Paul's campaign and that RBN has been refusing to allow Ron Paul supporters to call in to the radio show.

Phil Godlewski then informed Stockholder that he was not aware of RBN's censorship of Ron Paul supporters and that he would look into it.

Stockholder, continuing his campaign to educate Phil Godlewski about RBN's censorship of Ron Paul supporters, then informed Phil Godlewski that RBN has been censoring Ron Paul's campaign and that RBN has been refusing to allow Ron Paul supporters to call in to the radio show. It was shortly after this that Phil Godlewski informed Stockholder that he was no longer going to be pushing Ron Paul t-shirts on the radio show
